

1. Home Page

Overview

Introduces CareerCompass AI with a modern hero section, navigation menu, AI-powered career guidance message, statistics, and key feature cards.

Objectives

- Create a strong first impression for visitors.
- Highlight the core purpose of the platform.
- Provide quick access to important sections.
- Show platform statistics to build credibility.

Features Demonstrated

Responsive navigation, attractive hero banner, CTA buttons, feature cards, modern UI, clean typography.

Technical Implementation

Implemented using HTML5, CSS3, JavaScript, responsive layouts, cards, flex/grid, and reusable components.

Learning Outcomes

Learned how to design an engaging landing page and improve user experience through effective layout and visual hierarchy.

Future Improvements

Add authentication, AI chatbot, and personalized dashboard.
